

# SECURITY ALERT

## AI-Powered Phishing Emails from Trusted Organizations

Hyper-realistic phishing emails mimicking banks, government agencies, and trusted partners use AI to create convincing fake communications.

### RED FLAGS TO WATCH FOR:

- Suspicious links or attachments
- Urgent action required immediately
- Perfect grammar but unusual requests
- Sender address doesn't match official domain

### WHAT EMPLOYEES SHOULD DO:

- Check sender email address carefully
- Never click links in unsolicited emails
- Navigate to websites directly via browser
- Contact organization through official channels
